

# The CAVAL Disaster Master

## First Aid For Your Library

The CAVAL: assembled **Disaster Master** is a disaster bin especially fitted out to serve as a **first aid kit** for paper based collections which have been damaged by water. The bins contain sufficient supplies to begin immediate response in the event of a disaster. They are not intended as the principal resource for large-scale disasters for which suppliers of materials should be identified in the disaster plan.

As a guide, libraries with a collection of over 50,000 volumes should consider one bin for every 50,000. For collections located over several floors there should be a disaster bin on each floor.

**Price - \$1,145.00 (+ 10%GST)**

**(includes delivery in Melbourne metropolitan area – additional costs apply for other areas)**
